Diamaster EdgeExpert
High-quality edge performance

Diamaster EdgeExpert

Applying innovation and expertise to machine today's challenging materials

Benefits

- Consistent, clean finish of core material, regardless of board quality
- Significantly longer tool life
- Worldwide and local, on-site re-sharpening service for cost and time savings
- Perfect, chip-free finish on top and bottom material surface

Diamaster EdgeExpert High-quality edge processing

Diamaster WhisperCut EdgeExpert

A quiet and lightweight milling head for edgebanders. Aluminum alloy body and resharpenable/replaceable PCD knives.

Diamaster EdgeExpert Routers

Outstanding cut quality at maximum feed rates, performing exponentially longer than conventional PCD routers.

Diamaster PLUS EdgeExpert Jointing Cutters

PCD-tipped jointing cutters allow for perfect finish quality and outstanding tool life for high-volume industrial production.

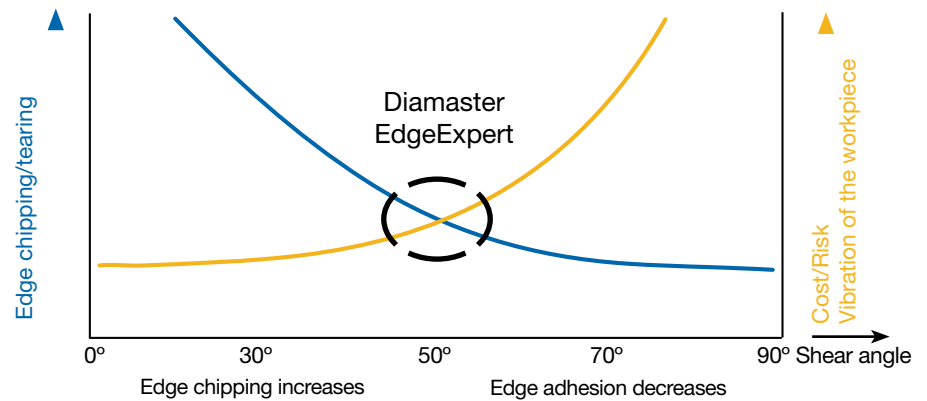

True experts in zero-edge technology

Innovative tooling concepts like the Leitz Diamaster EdgeExpert address today's growing demand for machining challenging materials.

EdgeExpert tools machine micropaper, veneer, melamine and high-gloss laminates with perfect, chip-free edges and cleanly cut core materials. EdgeExpert is ideally suited for laser zero-edge technology.

The cutting geometry makes the difference

reduces reasonable core cut, but laminate edges may chip

ideal laminate and core finish

laminates cut quality is good, but core plucking increases
